“ We worked with Volunteer Now to make sure we were offering our volunteers one of the best volunteering experiences they could have. They were extremely supportive in the liV process and the training was thought provoking, making sure we challenged our own beliefs about best practice.”

Citizens Advice Belfast

“ Trainers were excellent and their delivery was of the highest standard. They kept the group focused yet allowed good discussion and debate which is exactly what we wanted. I would have no hesitation in recommending this training to other organisations.”

Disability Action

“ Volunteer Now Enterprises’ knowledge of volunteering and experience in research was invaluable to us in measuring the social and financial benefits which the service provided for all involved. The service was personal, professional, efficient and tailored to our needs as an organisation.”
